

ARGENTA

IP66 Steel wall-mounting cabinets

The ARGENTA Series is a group of steel enclosures used to house electrical or electronic switchgear, control gear and equipment necessary to supply, distribute and transform electricity in industrial installations.

This series comprises an extensive range of standard models made with premium-quality materials in cold-rolled steel plate.

The design and manufacture of this product line is flexible and can be customized for settings that require specific dimensions depending on user requirements and installations.

The full range is accompanied by a set of complementary accessories: mounting plates, inner doors, canopies, eyebolts, ventilation systems, chassis, etc.

ARGENTA Technical Specifications (Rolled steel)

- **Degree of protection:**
 - Single-door cabinets: IP66 / NEMA 1, 12, 4.
 - Double-door cabinets: IP55 / NEMA 1, 12.
- **Resistance to impact:**
 - Opaque door: IK10.
 - Transparent door: IK09.
- **Ambient temperature range:** -25 °C / +60 °C.
- **Maximum rated operating voltage:** 1000 V AC / 1500 V DC.

ARGENTA Certifications (Rolled steel)

Compliant with the Low Voltage Directive 2014/35/EU.
Standards: UNE-EN 62208 and UNE-EN 61439-1 (as applicable).
UL508A and Gost-R certificates.
Bureau Veritas according to UNE-EN 62208 standards.
Certificate for boats.
VDE Certificate available for single-door cabinets.

ARGENTA

IP66 rolled steel wall-mounting cabinets

Product series (Rolled steel)

Standard

- Opaque door cabinets with mounting plate.
- Transparent single-door cabinets with mounting plate (add GNT to the reference).

To order

- Opaque door cabinets without mounting plate (add /SP to the standard reference).
- Special cabinets, dimensions, cut-outs, colours, etc.

Supply

- Supplied in individual packaging containing cabinet, plate and accessory bag.

Plain mounting plate

- For cabinets with a height of up to 700 mm they are supplied unassembled inside the packaging.
- For cabinets with a height of up to 800 mm and above they are supplied assembled.

Accessory bag:

- 4 watertight caps (if the wall-mounting cut-out holes are not used).
- Nut and washer kit for securing the earth wire.
- Plate height adjusters, nuts, washers and drainage caps.
- Key.
- Cable entry lid and fixing screws.
- Assembly instructions.

Intended for industrial facilities, wherever a high degree of protection and safety is required

Material

- Cold-rolled steel EN 10130+A1.
- Injected polyurethane sealing gasket.

Finish

- Coated with primer and hardened RAL 7035 embossed polyester paint, with UV protection.

Protection

- Corrosion resistance according to the UNE-EN 62208 standard. For outdoor installations the use of a canopy is recommended. The effect of corrosion must be taken into consideration.

Standard painting cycle

- **Degreasing:** Removal of remains of contaminants by means of a neutral stripper and tensoactive concentrate.
- **Rinsing:** Two rinses, the first one with mains water and the second one with demineralised water.
- **Passivation:** Thin-coat conversion agent.
- **Drying:** With hot air (in a tunnel at 100 °C).
- **Primer painting:** Application of a first layer of antioxidant protection primer paint.
- **First firing:** Furnace polymerisation adherence at 170 °C for 10 min.
- **Painting:** Coated with hardened RAL 7035 polyester paint.
- **Firing:** Furnace polymerisation adherence at 180 °C for 15-20 min.

Enclosure

- Manufactured in cold-rolled steel from a single cross-shaped part.
- Totally reversible cabinet.
- Sheet thickness:
 - 1.2 mm for cabinets from 250x200 to 600x500.
 - 1.5 mm for cabinets from 600x600 to 1400x1000 mm.
- Wall-mounting by means of four Ø9 mm cut-out holes.
- Wall-mounting support leaving a gap of 11 mm (supplied as an accessory).
- Four M8x25 bolts at the back of the cabinet for securing plates, adjustment elements or chassis.
- M6x10 earth bolt located on the cabinet wall for joining enclosure and door by means of earth wire.
- 2-mm thick cable entry lid with sealing gasket to guarantee IP protection.
- Double fold to prevent water from entering the cabinet.
- Drainage hole at the base of the cabinet to prevent condensation on the inside.

Door

- Possibility of opaque or transparent door with 110° reversible opening.
- Possibility of double door from 1000-mm width.
- Concealed and removal hinges with quick-assembly and disassembly pins.
- Sheet thickness on opaque doors:
 - 1.2 mm for cabinets from 250x200 to 600x400 mm.
 - 1.5 mm for cabinets from 600x500 to 800x1000 mm.
 - 2 mm for cabinets from 800x1200 to 1400x1000 mm.
- Transparent glass door:
 - 4-mm thick tempered glass in cabinets from 300x400 to 1200x1200 mm.
 - 3-mm thick Polycarbonate in cabinets from 250x200 to 300x300 mm.
- Injected polyurethane sealing gasket to guarantee IP protection.
- Welded reinforcement profiles with cut-out holes with a separation of 25 mm for fitting accessories.
- Door centring device included in cabinets with a height of 600 mm and greater.

Locking

- Standard 5-mm double-bit lock plus key.
- Three-point rod lock for cabinets with a height of 1000 mm or greater.
- Other types of locks supplied as accessories.

Mounting plate

- Flat mounting plate included in all cabinet references.
- Made from galvanised sheet steel with a thickness of 2 mm.
- For cabinets with a height of 600 mm or greater, the plates have folds on the sides to provide greater rigidity.

Single-door cabinets: IP66 / NEMA 1, 4, 12.

Double-door cabinets: IP55 / NEMA 1, 12.

Cold rolled steel primed and painted RAL 7035.

Injected polyurethane sealing gasket.

3P: one 3-point lock.

Cabinets supplied with mounting plate. For references without mounting plate, add /SP; e.g.: GN6012030PD/SP.

Pack of 4 plate height adjusters supplied in all references, even in those without plate /SP.

For references with transparent door, add GNT; e.g.: GNT403015.

Transparent doors from 250x200 to 300x300 mm: 3-mm thick Polycarbonate.

Transparent doors from 300x400 to 1400x1000 mm: 4-mm thick tempered glass.

VDE certificate only available for single-door cabinets.

For special cabinets and cabinets without plate, check availability of UL certificate.

Maximum acceptable loads

	Total load	Door	Plate

Cold rolled steel primed and painted RAL 7035. Injected polyurethane sealing gasket.

It is not compatible with the assembly of a chassis or inner door.

Cabinets supplied with mounting plate. Pack of 4 plate height adjusters supplied.

Side panel

Reference

Description

PLA6040

Side panel 600x400 (2 units)

MATERIALS: Cold rolled steel primed and painted RAL 7035.

CHARACTERISTICS: For wall-mounting combinable cabinets.

FOR THE FOLLOWING CABINETS: GNL.

Insulation joint

Reference

Description

48480

Insulation joint (6 m)

MATERIAL: Polyethylene foam.

CHARACTERISTICS: IP55 protection guaranteed.

Dimensions: Argenta combinable

Enclosure

- Made of cold rolled steel, primed and painted RAL 7035.
- Sheet thickness: 1.5 mm.
- Supplied without side panels.
- Four dies in the upper part to install eyebolts. It is necessary to order reference number 48475 as an accessory.
- No cable entry.

Door

- Sheet thickness: 1.5 mm.
- Injected polyurethane sealing gasket.
- Welded reinforcement profiles with cut-out holes with a separation of 25 mm for fitting accessories.

Side panels

- Side panels: Supplied as an accessory, reference PLA6040, including two panels.
- Made of cold rolled steel primed and painted RAL 7035.
- Injected polyurethane sealing gasket.
- M6 countersunk screws for attachment.

Union of cabinets

- The cabinets are joined using 10 M6 screws and nuts, included.
- To achieve an IP54 degree of protection it is necessary to join the cabinets using the sealing gasket reference No. 48480 (see page 144).

Mounting plate

- Flat mounting plate included in all cabinet references.
- Made from galvanised sheet steel with a thickness of 2 mm.

Locking

- Standard 5-mm double-bit lock plus key.
- Other types of locks supplied as accessories.
